ECONOMIC IMPACT OF ENVIRONMENTAL CONTROLS ON THE FRUIT AND VEGETABLE CANNING AND FREEZING INDUSTRIES

PART IV

STATISTICAL SUPPLEMENT

A Report to the
Council on Environmental Quality

P-585
November, 1971

PREFACE

This volume is one in a series of reports developed by the Agri Division, Dunlap and Associates, Inc. for the Council on Environmental Quality as part of a comprehensive study entitled: Economic Impact of Environmental Controls on the Fruit and Vegetable Canning and Freezing Industries. The set of reports include:

Part I: Executive Summary

Part II: Industry Structure

Part III: Impact Analysis

Part IV: Statistical Supplement

These reports complete the program of work as planned and specified under Contract PA 71-53.

CONTENTS

PREFACE

INTRODUCTION

SECTION I. Maps

SECTION II. Cross-Tabulations of All Plants by Census Regions, State and County
- Set I. Variables (6) - (9)
- Set II. Variables (10) - (11)

SECTION III. Cross-Tabulations of All Plants by Economic Region and Subregion

SECTION IV. Cross-Tabulation of Canners Only by Census Region, State and County

SECTION V. Cross-Tabulations of Canners Only by Economic Region and Subregion

SECTION VI. Cross-Tabulations of Freezers Only by Census Region, State and County

SECTION VII. Cross-Tabulations of Freezers Only by Economic Region and Subregion

SECTION VIII. Cross-Tabulations of Combination Canner/Freezers by Census Region, State and County

SECTION IX. Cross-Tabulations of Combination Canner/Freezers by Economic Region and Subregion

INTRODUCTION

Differential area impacts are expected within the fruit and vegetable canning and freezing industries if pollution control standards are uniformly imposed on all processing plants. As described in Part III, the 'small' plants are expected to be most severely impacted, and these plants are not uniformly distributed throughout the main processing regions/areas of the United States.

Specific Region/Area patterns among processing plants can be ascertained from the cross-tabulations of all canning and freezing plants by various geographic categories. Two basic types of "location" tables are contained herein:

(1) Census Region
    State
        County
(2) Economic Region
    Economic Subregion

On the premise that small, and to some extent medium, sized plants are to be impacted most severely, an intensive effort was made to identify each plant in the industry and to obtain a number of key characteristics about each plant, particularly size and location. [1/] This information was coded and processed for use in a cross-tabulation analysis program. This document contains many of the tables generated.

The following data were developed for each of 1188 canners, freezers or combination canner/freezers:

1/ The Directory of the Canning, Freezing, Preserving Industries, 1970-71 Third Biennial Edition, Compiled and Published by Edward E. Judge & Sons, Maryland, 1970.

Variable	Description
(1)	Census Region Location
(2)	State Location
(3)	County Location
(4)	Economic Region Location [1/]
(5)	Economic Subregion Location
(6)	Economic Development Administration Qualified County (1 = yes; 2 = no)
(7)	Type of Plant (1 = Canner; 2 = Freezer; 3 = Both)
(8)	Size Class (1 = Small; 2 = Medium; 3 = Large) [2/]
(9)	Type of Products Packed (1 = fruit; 2 = vegetables; 3 = both)
(10)	Number of Products Packed (actual)
(11)	Number of Plants in Firm (actual)

Variables (6) - (11) were analyzed in two separate runs as follows:

Set I - Variables (6) - (9)

Set II - Variables (6) - (8) and (10) - (11)

The tables included in this document are described in the Contents. In summary, Set I tables are available for (1) All plants, (2) Canners only, (3) Freezers only, and (4) Combination canner/freezers. These are presented both for the Census Region and the Economic Region types of strata. Set II tables are presented only for all plants by Census Region.

This volume is the fourth and final part in a series of reports under the general title: Economic Impact of Environmental Controls on the Fruit and Vegetable Canning and Freezing Industries. For reference, the four parts are again as follows:

Part I: Executive Summary
Part II: Industry Structure
Part III: Impact Analysis
Part IV: Statistical Supplement

[1/] Bogue, Donald J. and Calvin L. Beale, Economic Areas of the United States, The Free Press of Glencoe, Inc., April 1961.

[2/] An initial 9 code classification (described in Part III) was recategorized following preliminary analysis to approximate one-third in each class.

Map 1. Census Regions and States of the United States

Map 2. Economic Regions of the United States

Map 3. Economic Subregions of the United States

SECTION II CROSS-TABULATIONS

All Plants

by

Census Region, State and County

Set I: Variables (6) - (9)
